GATEWAY TO A BETTER TOMORROW

Liz Lauber for Congress

Missouri's 2nd Congressional District

I am running for the U.S. House of Representatives because, like you, I am frustrated with current leadership in Washington. With your help, we can do something about it and create a ***Gateway to a Better Tomorrow*** for hard working Americans living in MO-2 and throughout our great nation.

If given the privilege to represent the Second Congressional District of Missouri, I will stand for a renewed commitment to never lose sight of the responsibility of a limited government to empower and protect the liberties, quality of life, and sovereignty of every American.

"Who am I and what is my campaign about?"

The two issues at the forefront of my campaign are economic stability and national security. As a seasoned public policy advisor in Washington, DC in both the public and private sector, I bring experience to the table from my position working in leadership regarding economic tax relief measures, such as the *Flat Tax* proposal, while managing the "Scrap the Code" tour across America. I also bring years of experience dealing with national security policies while working for the Homeland Security Committee, whereby our proposal to make funding for first responders "risk-based" became the Committee's centerpiece legislation.

All across America, a new wave of sentiment to just "throw out the old and in with the new" era of leadership in both parties is on the rise from small town America to the halls of Congress in Washington, DC. Americans are suffering from pay cuts and job losses, and they want to know why their elected leaders are not throwing their arms and fists up high and demanding accountability. This relates to the very core reason why I am running for Congress.

As a free enterprise Republican, with a strong commitment to empowering communities, I am campaigning to improve our economy, maintain a strong national defense, and utilize the role of government to protect those who need assistance.

"What do I bring to the table that will benefit your life, family, and future?"

The core of my campaign is to get our economy bustling again! With unemployment rising to an all time high for Missouri's counties: up to 9.8% nationally and 9.6%, 8.5%, and 11.4% in St. Louis, St. Charles, and Lincoln Counties respectively; it's time to focus on getting Americans all across the nation back to work.

My ***Five Star Plan*** to spur the economy will help us move in that direction and it doesn't include earmarks, it evaluates our current tax code; end punitive earnings test on our seniors; ignites our infrastructure to create jobs; and strengthens our capital markets while encouraging entrepreneurship; and, lastly, enhances small businesses by lowering federal business tax rates and encouraging job creation incentives.
